After climate change wrecked the planet, a man-made extinction event wiped humankind off the face of the Earth. Only a few thousand 'descendants of humanity' were hand-picked to survive the apocalypse, cryogenically suspended in underground bunkers known as Arks. Centuries passed. The world recovered from the nuclear holocaust, and all the Arks reopened, except one — Ark-01. Taking place across two timelines, in the past you'll play as Mia, a janitor tasked with keeping the precious descendants housed within Ark-01 alive while the facility continually falls around her, and in the present, you'll play as Donnie, one of the investigators trying to rescue any surviving descendants trapped within, all while discovering a far greater conspiracy buried within the underground Ark complex. Every action and choice you make directly impacts who lives and who dies, leaving the fate of Ark-01, and mankind itself, in your hands. Will you save mankind? Or doom us all? Episodes 1. Aftermath 2. Into The Storm 3. What Lies Beneath 4. Cerberus 5. Ultimatum Key features - An episodic adventure spreading across multiple story-rich timelines - Investigative gameplay, challenging puzzles, tense action sequences - Meaningful and difficult choices with branching dialogue - A tailored experience, full of tension and drama - Every player choice can influence the future of mankind More Info Developer: Gaming Corps AB Publisher: Gaming Corps AB Genre: Adventure, Puzzle solving, Third-person, 3D Language: EN / Multi5 Treatment: Not required Release Date: 2016 Minimum System Requirements CPU: Intel i3 2.0GHz or equivalent RAM: 4 GB OS: Windows Vista+ Video Card: AMD or nVidia card with 1GB RAM Free Disk Space: 12 GB Recommended System Requirements CPU: Intel i5 2.5GHz or equivalent RAM: 6 GB OS: Windows 7 Video Card: nVidia 500 series or higher Free Disk Space: 12 GB Gameplay Trailer & Screenshots Alternative Versions 1. However I was given some negative responses to my IMDb user review of the movie, which is something all IMDb users are at risk of getting. Just because I didn't feel the same way most people did about it doesn't mean I was unsympathetic towards the main characters. Whoever misgivings I may have had about the previous movie, it had nothing to do with Dove. Before the movie, Cameron herself said this would blow the first movie out of the water, and I have to admit I was impressed.Mal is on the verge of marrying Prince Ben, and is overwhelmed by the publicity. Before we see what she's living with, we get a fantasy sequence used as the theme song, and I have to admit, no matter who mentions any song called "Ways to be Wicked," I always think of the Lone Justice song from the 1980's. The daughter of Maleficent is caught off guard by the prospects of marriage, as well as the prince showering her with gifts, including a new scooter. She's also facing pressure to turn her spell book over to the "Museum of Cultural History," which she has been reluctant to do. In the meantime, Carlos has been crushing on the fairy godmother's daughter Jane (who looks better in the sequel, BTW), Jay is winning the heart of Lonnie, and trying to get her a spot on the fencing team. Evie is adjusting well to life in Auradon, and even helping those in need. After being caught using her spell book for a date with Ben who chastises her over it, she finally breaks down and is ready to give up and return to the Isle of the Lost. Certainly no slouch when it comes to talent is China Anne McClain, who plays Uma, the daughter of Ursula from "The Little Mermaid." Disney probably wanted her for a few more projects since she became the third wheel on her own sitcom, and they got their money's worth with McClain. With the sons of Captain Hook, Gaston, and lesser pirates, Uma more or less runs the island, as well as a seafood dive bar and restaurant But seeing Mal on TV apparently living the good life pisses her off.On the isle, we meet a pre-teen hairdresser named Dizzy Tremaine (Anna Cathcart), who is the granddaughter of one of the evil stepisters of Cinderella. With her messy pigtailed, color-splattered frock, and purple cat-eyeglasses barely hiding her copper eye shadow, Dizzy's true talent as a hairstylist is overlooked by her grandmother, but not by Mal or Evie. Unlike the other kids of the villains, she is anything but evil. Mal also keeps her from being victimized in an extortion racket by one of Uma's gang, which leads to the revelation that she has returned, and so has her purple hair.Feeling guilty over trying to change his girlfriend and driving her away, he decided to go to follow her to her former prison island, and Evie, Jay, and Carlos know they have to go with the Prince, at least partially for his protection. They eventually find her and he tries to talk her into coming back, through no avail. While Mal loves the Prince, and life on Auradon, she feels she's a liability to her boyfriend, the royal family, and the kingdoms. But then Evie starts off a duet of "The Space Between," and everything seems like it's going to be okay. Unfortunately Ben gets kidnapped in the process of trying to bring Mal home, she demands that Uma let him loose. Meanwhile Ben tells her abductor that the effort to bring the villain kids away from their evil parents influence was going to be expanded to other kids and could've even included her. The new villain makes a deal with the future princess and demands the fairy godmother's wand. The villain kids return home to make a fake wand with a 3-D printer, and bring it to Uma as a substitute this time with the help of Lonnie. They have a musical number before the exchange, with a bridge where Prince Ben urges the girls not to fight, but they go through with it anyway, and battle each other when Uma finds out it's fake, but not before returning Ben. I smelled a sequel to this the moment that Mal's spell-book was dropped on the Isle of the Lost as they tried to escape, and to be honest, I'm open to the idea. I also wish I was able to say something about the possibility of a third movie in my review before the first promo for it. I won't spoil the ending if you haven't seen it already, but the first four refugees of the Isle of the Lost do defeat the remaining villains. Also the post-credit ending is better than anything Kenny Ortega did with his previous franchise. Having said that, there are only so many years that the cast can continue to be believable as their characters, and unless I'm mistaken Melissa De La Cruz's books will outnumber the movies that the cast can make. So the idea that the third one could be the last won't surprise me at all.Suggest an edit or add missing contentBy what name was Descendants 2 (2017) officially released in Canada in English?AnswerYou have no recently viewed pages Fzmovies netnaja mp4mania yts 480p 720p 1080p , x265 x264 , torrent , HD bluray popcorn, Watch Stream mkv 3gp, Eng Sub, Subtitle, Netflix, Mp3, Mp3 Download Descendants 2 (2017) Release Date: Jul 28, 2017 Genre: Musical, Fantasy, Romance, Comedy-drama, Teen, Family Stars: Dove Cameron, Cameron Boice, Sofia Carson Source: Descendants.2.2017.1080p.AMZN.WEBRip.DDPS.1.x264-TVSmash When the pressure to be royally perfect becomes too much for Mal, she returns to her rotten roots on the Isle of the Lost where her archenemy Uma, the daughter of Ursula from The Little Mermaid, has taken her spot as self-proclaimed queen of the run-down town. Uma, still resentful over not being selected by Ben to go to Auradon Prep with the other Villain Kids, stirs her pirate gang including Captain Hook's son Harry and Gaston's son Gil, to break the barrier between the Isle of the Lost and Auradon, and unleash all the villains imprisoned on the Isle once and for all.
